Message from Doug Jensen

September 16, 1999

I called Jack Johnson today to inquire about the pictures that he had taken during his viewing of the site. The pictures were Polaroids taken from some distance so any reproducibility or identification isn't possible. Sounds like we need to schedule a visit to the area to see for ourselves. The BLM is concerned and if Sal is not available to go out to the site with us Jack would like to go along. Jack's directions to the site was to take the West Water exit towards Grand Junction — Go under the freeway to the old Highway 6 & 50, turn left and the site is about 1/4 mile down the road.

This message sent to file # S/019/048 until this site can be properly identified.
